

Bag It: Anya Hindmarch Fruit & Vegetables Tote

Written by Claire Perkins

Bag It

If you're anything like me, you feel like a flippant fool every time you forget the reusable tote when you go to the grocery store. The sad, crying trees! The seagulls who will die an untimely plastic bag death!

If I had this Anya Hindmarch Fruit & Vegetables tote, the cutest tote that ever toted, I'd never forget a tote again. Tote. The canvas bag is screened with veggies that are way healthier than I'd ever buy, though. Do they make one with Twinkies and chips and guac?
