

Gellin: Sephora by OPI gelshine At-Home Gel Nails

Written by Claire Perkins

Gellin

If you can't get enough of the optical illusion that is Kim Kardashian's nails and visit Bertha at your local nail salon weekly to get your gels soaked and re-applied and smell like acetone and know what I mean when I say "bubble bath is the best neutral", than have I the product for you.

Sephora has cranked out-before anyone else, per usual-the beauty product everyone is trying to replicate: at-home gel nails. It's a little spendy, but if you drop \$40 a week on gels it'll only take a month for this little diddy to pay for itself.

It includes:

A 0.29 oz gelshine™ Base Coat, 0.29 oz gelshine™ Top Coat, 0.29 oz gelshine™ Gel Colour (must add to cart separately), gelshine™ LED Light, 25 x Nail Pads, 3 x Removal Nail Wraps, 2 oz Nail Cleanser, Buffing block, 2 oz Nail & Gel Colour Remover, 0.3 oz Brush-On Cuticle Oil, Cuticle pusher, 3 x gloves and instructions to adhere rock-hard gel globs to your nails with ease.
