It's great to be a girl! Feminine and flirty is one of the key trends this season. Look for shoes with feminine embellishment - lace, bows, sequins, ruffles.

Yes, the wedge is here to stay for another season with rope and cork wedge bottoms taking center stage and the platform high heel has at least another season or two.

The gladiator sandal is a must-have again this Spring, but this time around it has a wide collar and a variety of embellishments including studs, jewels, buttons, etc.

Color? Neutrals are important and the opposite end of the spectrum is Spring brights - tomato red, turquoise, yellow, and pink.
