Fall weather is just around the corner, which means it's the start of event and wedding season. Whether you're looking for fall wedding attire, or something for a special event, Michelle Fink, director of Wedding Operations at [Nick's Menswear](#), shares some helpful pointers on how to look your best in the latest fall fashions.

Suit Trends:

Celebrate the most fashionable season by being bold with your suit colors. The most popular suit colors this fall include burgundy, forest green, textured browns and plaid. If you want to go for a more classic suit, try a shawl collar in black or deep navy. You can also have fun with fabrics by switching things up and utilizing non-textured suits with a wool, textured, and off-color vest. This will give the suit more of a vintage feel.

Suit Accessories:

Accessorize your look with pops of burnt oranges and deep, romantic colors. You can include plum and mauve colors with burgundy accents to really spice up your style. Match the colors in you tie with accents such as, lapel pins or pocket squares. If bold colors aren't your thing, neutral pallets are always a great go-to.

Shoes:

Shoes are a big deal and something that many men overlook. If you're working with a cool color pallet, wear black shoes with black belts. If you're using warm color pallets, stick with brown shoes and a brown belt.
