

Debut of World Class Butterfly Wonderland

Written by Lauren Topor

Friday, 26 April 2013 07:46 - Last Updated Friday, 26 April 2013 07:59

The city of Scottsdale is welcoming America's largest butterfly pavilion on May 25. The state-of-the-art facility will feature a conservatory, a 3-D theater, educational labs, a butterfly treasures gift shop and café.

Nature lovers of all ages will be enchanted when passing through the glass-enclosed rainforest environment atrium boasting spectacular waterfalls, beautiful lush plants and a large koi pond, home to thousands of unique butterflies from the far reaches of the world.

Explore the habitats of live ant colonies staged in an acrylic 360-degree viewing area and get an up close look at honey bee's and their hives as they go about their daily activities behind protected glass leaving visitors wowed and unimpressed.

Parties and special events can be hosted in the multi-purpose room against the setting of the pavilion.

The Butterfly Wonderland is located at 9500 E. Via De Ventura, Scottsdale, spanning five acres at the Salt River Pima Maricopa Indian Community on the northeast corner of the 101 Freeway and Via De Ventura.

Hours of operation are 9 a.m. – 5 p.m. daily.

Memberships

Don't miss out on this once-in-a-lifetime opportunity to purchase "Founders Lifetime Memberships" for \$99 per person and \$249 per family through June 15. After that time no further lifetime memberships will be sold.

Looking to Volunteer?

If you have a passion to work alongside others who are fascinated about the natural world, butterflies and all things that buzz, volunteer for a number of positions exclusively available at Butterfly Wonderland.

Volunteer duties include greeting visitors, assisting in the café, providing brief information to guests and creating a positive experience for visitors from all over to enjoy.
