HISTORY

If you're not familiar with The Container Store, they actually created the storage and organization category of retail in 1978 when they opened their first store in Dallas. Since the inception, they have nurtured an employee-first culture coupled with a high- level of customer service and incredibly innovative products – all working together to help our customers save space and, ultimately, time. Who couldn't use a little more of that? Their goal is to improve the quality of life of customers through the gift of organization and the company is quite excited to bring these elements to our new customers in Glendale.
