It would be a shame to visit Northern California without exploring the rich wine country of Napa Valley. Whether as a large group or a romantic getaway, wine tasting through the plush vineyards is never a disappointment.

Top Napa Restaurant

Angele is our pick for a must-try restaurant on your trip to the wine country. This French favorite features a menu, layering elements from traditional recipes with contemporary influences. Its focus on rich and soothing French cuisine ranges from the classic simplicity of vegetable potage to the robust balance of veal stew. The ambiance is chic but French quaint and the patio view is gorgeous. www.angelrestaurant.com

Top Napa Hotel

Set among the rolling hills of Napa Valley's wine country, **Silverado Resort** is not your typical modern resort. This mansion getaway is in the midst of the green agriculture and provides guests with the total feel for life in the vineyards. The elegant Silverado features all the first class amenities, from a lavish spa to championship golf to fine dining. Your dream vacation awaits. www.silveradoresort.com

Napa Wine Tasting

Visiting Napa Valley without the taste of its homegrown grapes would be a travesty, not only because the wines are so fresh and pure but also because it's a chance to learn how your wines are made and the difference among the varieties.

Wine Tasting Tips

Although you may get anxious to try all the wines and hit the next winery, be sure to ask questions about each. The owners are usually very friendly and love to talk about their beloved self-made wines and winery. You will find that the process of making wine is quite interesting and will lead you in your quest to discover your own personal favorite selection and type.

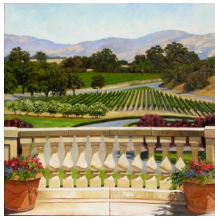

It is customary for the white wines to be poured first, followed by red wines, and then dessert wines.
